

SHOTBLASTING MACHINES

**FOR MARBLE, BETON, GRANIT
SERIES "STL" WITH WIRE MESH STEEL
OR RUBBER CONVEYOR**

**AVAILABLE WIDTHS OF PASSAGE
600 - 800 - 1000 - 1200 - 1500 - 2000 - 2200
2 - 3 - 4 CENTRIFUGAL TURBINES**

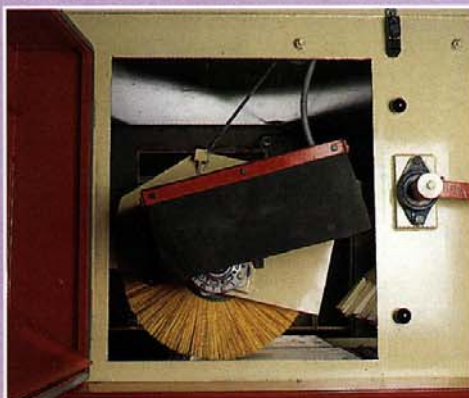

COGEIM

SHOTBLASTING MACHINES STL - A - 1000

**SHOTBLASTING MACHINES
FOR MARBLE-CHIP FLOOR TILE,
GIRDERS, COMPONENTS FOR
FENCE, STAIRCASES AND
OTHER APPLICATIONS.**

COGEIM - CASOREZZO (MI) - Tel. 02.9010565

COGEIM is a producer of every kind of shotblasting machines and sand blasting plants (turbine and compressed air type also). Present on world-wide market from thirty years about, COGEIM has engineered and produced a serie of specific machines for the surfaces treatment of buildings, gardening, flooring (girders, finished components or pieces in natural marble or composed material pieces, granite, beton tiles, stones).

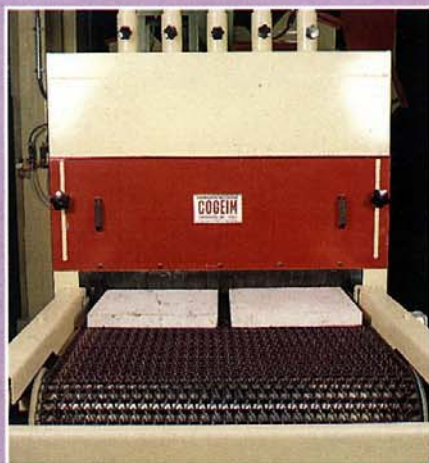

BRUSHING

These machines (pass-trough type) are equipped of a wire mesh or rubber conveyor belt, shotblasting throw turbines, an automatic system of recovered and re-conditioning shot, an automatic system of suction and elimination of dust. This is a dry treatment and the extracted dust can be easily drained or reutilized.

A series of specific devices (speed variability of the conveyor turbines, control of the flowrate and direction of shotblasting throw) ad-

ded to a competent choice of the number and the position of the turbines as well as the shot dimensions, permit to the user to select from the control board the parameters most appropriate to the kind of the expected working (ancient treatment, roughening, satinizng, drawings in contrast by mask, removal tender components). A blow air device, sometimes coupled to a brushing system, permit the perfect cleaning of the material at the end of the cycle.

Contact information update:

We have begun the long arduous process of moving our office.
Please continue to direct mail to:

Sawyer and Smith Corporation
5412 Homegardner Road
Castalia, Ohio 44824

All phone contact to:
423.289.6894

All other email and website information remains the same. You can contact us at any of the existing web addresses. Email is received remotely and responded to more quickly and efficiently than a phone message. If you call the office, please leave a thorough message INCLUDING your email address so that we can send you the required information as soon as possible.

Thank You.
